Insight into Turf Management, Culture and Trends

Silver Spring Country Club

439 Silver Spring Rd, Ridgefield, CT 06877

October 24, 2023 | 12:30 pm

This 1 hour presentation will be interactive and cover differences in golf course grass species (bentgrass versus Poa) used for greens, tees and fairways, aerification techniques and timings, and golf course infrastructures (ages of greens, bunkers, irrigation and drainage). Golf course renovation and capital projects will briefly be outlined. This talk will allow attendees to better understand golf course maintenance and how various factors impact how a golf course looks and plays. There will be time at the end for agronomic related questions.

Schedule
