Personal Security From All Angles

Monday, May 3, 2021 | 2 p.m.

Lead by Gary F. Rossi, VP of Security for Fidelity Investments

In an age where security breaches and cyber attacks dominate the headlines, personal security is a concern for everyone. This event, led by world-renowned expert and former FBI agent, Gary Rossi, will focus on online and personal security and will provide you with practical advice on security threats and appropriate risk mitigation strategies.

Our discussion will cover many questions including:

- How to be safe online.
- What is secondary verification?
- Why do hackers want my data?
- How can we travel abroad safely?
- How do I keep my family safe in my own home?
- How can I vet household help?
- How do I protect my parents or grandparents from elder abuse?

Gary F. Rossi
VP of Security for Fidelity

1 Activity credit awarded to CMAACT members in virtual attendance
